ORALITE® Fleet Engineering Grade Film

5650RA

5600

Applications	Ideal for applications over flat surfaces, rivets and simple curves.	
Product Benefits	<ul style="list-style-type: none"> • Designed to make fleet applications easier by reducing the incidence of bubbles • Advanced air release liner allows for quicker, easier installation without distracting surface patterns • Repositionable adhesive allows for easier, more forgiving installations 	<ul style="list-style-type: none"> • High quality, reliable solvent adhesive system allows for adhesion to a wider variety of surfaces; removable with heat
	<ul style="list-style-type: none"> • Optimal for long-term applications such as fleet, commercial signage and high-quality graphics 	<ul style="list-style-type: none"> • Provides excellent reflection, even in poor visibility and bad weather conditions
Outdoor Durability	7-year	
Thickness	5.5 mil	5 mil

Prismatic Construction Grade

AR1000

Delineation Sheeting

Applications	Designed for the production of work zone signs and barricades for the construction work zone.	For use in long-term delineation and work zones on barrier, guard rail and roadside post applications.
Product Benefits	Meets ASTM D 4956 specification Type IV, Class 1 retroreflective sheeting	Meets ASTM D 4956 specification Type V, Class 1 retroreflective sheeting
	High performance polymeric film	Impact, abrasion and solvent resistant surface provides improved safety and reduced life cycle cost
	Clear, solvent polyacrylate, permanent adhesive	Microprismatic retroreflective elements allows for increased driver reaction time
		Pressure sensitive adhesive ensures ease of installation
Meets requirements of MUTCD
